swing door the
world comes to life.
Our doors are uniquely
designed to fit the way
you live, blending
advanced technology
with innovative
features that add
beauty and value to
your home.*

Heartland
WINDOWS

“The Strength of the Heartland”

The performance and durability of our vinyl swing door is determined by the character of the vinyl itself. We follow the most demanding manufacturing standards to ensure the quality of every vinyl component we produce.

REINFORCED FOR QUALITY

The swing door vinyl profiles are reinforced with steel bars for added strength and durability.

THE STRONGEST VINYL FRAMES

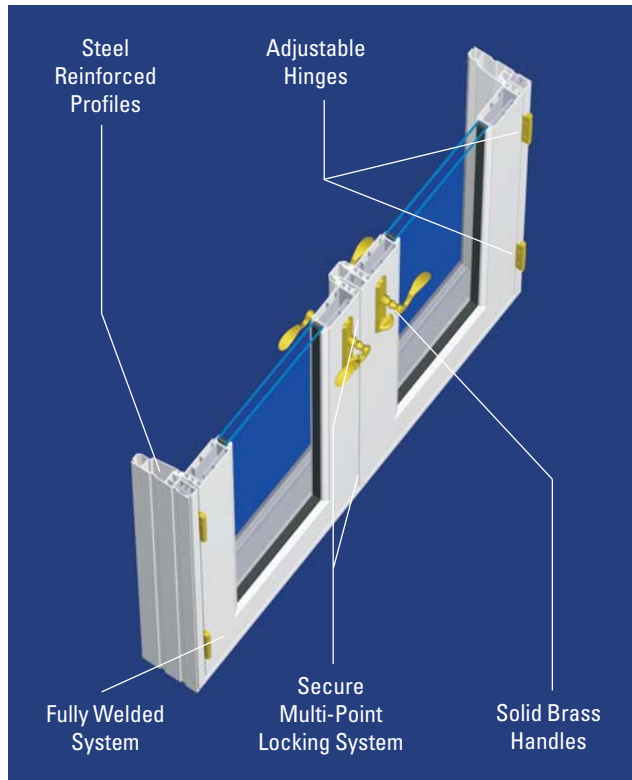

Fusion-welded corners on both the frame and sash and a multiple hollow chamber design build strength and structural integrity directly into every vinyl swing door we manufacture.

PUT AWAY THE PAINT FOR GOOD

Integral color throughout the vinyl creates a lasting finish that never needs painting. The vinyl in our swing door will never chip, peel, or crack—guaranteed!

ENERGY-EFFICIENT

Our multiple hollow chamber design produces a thermally efficient frame with superior resistance to heat transfer.

FEEL SAFE AND SECURE

Our swing door comes standard with a multi-point locking system that will make you feel safe and secure.

ELEGANT HARDWARE

Solid brass handles give an elegant, luxurious look to the swing door.

PRECISION, ADJUSTABLE HINGES

Our adjustable hinges allows for precision vertical and horizontal adjustment during installation and for future door maintenance and alignment.

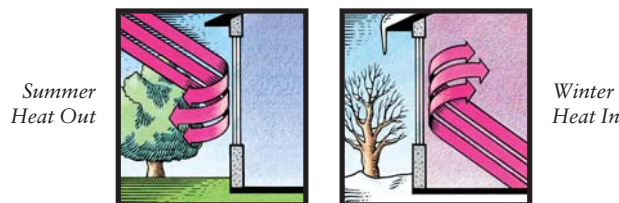

PROTECTIVE SILL COVER

The vinyl sill is covered with a “Gold” aluminum threshold cover for extra protection against wear.

8600 SERIES SWING DOOR

Available in Terrace or French styles.

LOW E = HIGH PERFORMANCE

Low E (low emissivity) coated glass is an important component for our swing door. Low E specifies a microscopically thin, virtually invisible coating deposited on a glass surface. This coating limits radiant heat flow between window panes by reflecting heat into your home during cold weather, and back to the outdoors during warm weather.
